New in-house Tests at FML April 2017

Starting now, we will be offering the following tests in-house:

Transferrin

Material: 1 ml serum

Method: turbidimetric

Running days: daily

TAT: same day or next day

*Transferrin saturation also available upon request.
It is calculated using the iron and transferrin values.

dsDNA – quantitative

Material: 1 ml serum

Method: ELISA

Running days: Monday, Wednesday, Saturday (must receive samples before 1pm)

TAT: 2 days
